

# DIVYA MANCHANDA

Frontend Developer | React Js | Wordpress | Javascript

+91-6280678298 • [manchandadivya04@gmail.com](mailto:manchandadivya04@gmail.com) • [divyamanchanda.com](https://divyamanchanda.com) • [LinkedIn](#) • [GitHub](#)

## PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of professional experience building and deploying production-ready web applications. Proficient in React.js, JavaScript, HTML5, CSS3, and WordPress. Delivered 3 live projects including a REST API-integrated React app and custom WordPress websites. Unique background in ERP systems and SQL adds strong business logic understanding — enabling faster, data-aware UI development. Currently pursuing MCA from LPU.

## EXPERIENCE

### Frontend Developer & ERP Systems Analyst

Mar 2025 – Mar 2026

Shiva Group of Companies · Ludhiana, Punjab

- Built and maintained frontend modules for an in-house ERP system (VB.NET + SQL Server), improving data visibility for 50+ employees across payroll and inventory
- Wrote and optimized SQL queries for multi-unit business reporting — directly applied to designing data-driven UI dashboards
- Identified and documented 15+ ERP system bugs, reducing critical fix response time by 30%
- Collaborated cross-functionally with operations and finance teams to translate business requirements into technical solutions
- Gained deep understanding of enterprise application architecture — rare for a frontend developer at this level

## PROJECTS

### Game Hub React.js · Chakra UI · REST API · Vercel

[Live Site](#) →

- Full-stack gaming discovery app consuming live data from RAWG API (500,000+ games database)
- Implemented genre and platform filtering with React hooks (useState, useEffect) — zero page reloads
- Built modular, reusable component architecture following clean code principles
- Deployed to Vercel with production-ready performance optimization

### Printora WordPress · Elementor · Plugins · SEO

[Live Site](#) →

- Designed and deployed a complete business website — Home, About, Services, Pricing, and Contact
- Independently handled domain registration, DNS configuration, and hosting setup end-to-end
- Configured SEO, contact form, and performance plugins; achieved mobile-responsive design across all devices

### Hostified HTML5 · CSS3 · Flexbox · CSS Grid · Netlify

[Live Site](#) →

- Built fully responsive static site using pure HTML5 and CSS3 — no frameworks, no dependencies
- Used Flexbox and CSS Grid for adaptive layouts across mobile, tablet, and desktop breakpoints
- Semantic HTML5 throughout for accessibility and clean document structure

## TECHNICAL SKILLS

|          |                                                                                   |
|----------|-----------------------------------------------------------------------------------|
| Frontend | React.js, JavaScript (ES6+), HTML5, CSS3, Chakra UI, Bootstrap, Responsive Design |
| CMS      | WordPress (Elementor, Themes, Plugins, SEO, Performance Optimization)             |
